

XXII INQUA CONGRESS 2027

28 January - 3 February 2027
Lucknow, India

SPONSORSHIP AND EXHIBITION PROSPECTUS

XXII INQUA Congress 2027

The INQUA Congress is held every four years and is the principal global meeting covering all aspects of the Quaternary, the most recent period of Earth's geological history. The Quaternary witnessed dramatic changes in climate, landscapes, glaciers and ice sheets, sea levels, ecosystems, and human evolution. Its geological and environmental records are of immediate relevance to society and industry, with applications spanning agriculture, civil engineering, mining, energy, water resources, environmental management, and climate-change assessment.

The Congress brings together leading experts from around the world through scientific sessions, plenary lectures, field excursions, workshops, exhibitions, and social and networking events. It also provides an important platform for organisations, institutions, and industry partners to showcase their work, technologies, products, and services. The XXII INQUA Congress 2027 is expected to attract an international audience of approximately 3,000 participants.

About INQUA

The International Union for Quaternary Research (INQUA) was established in 1928 and exists to encourage and facilitate research for Quaternary scientists across all disciplines. Visit www.inqua.org

INQUA's basic goal is to promote improved communication and international collaboration in experimental and applied aspects of Quaternary research. INQUA promotes a greater understanding of the importance of Quaternary environmental and archaeological records in two ways: by engaging in international dialogue and activities concerned with modern global environmental problems, and by funding activities that clarify the background context of these problems within the Quaternary timescale.

The Quaternary period witnessed the evolution of modern humans against a backdrop of recurrent advances and retreats of glaciers and continental ice sheets, major oscillations in global sea level, abrupt reorganisations of global meteorological and oceanographic circulation patterns, and a range of other physical and biological adjustments to climate change. Quaternary records therefore offer important baseline data for evaluating a number of the issues at the forefront of today's environmental concerns, such as quantifying future ice sheet decline and sea-level rise, ocean warming and acidification, increasing climatic instability, extinction of plants and animals, groundwater recharge rates, volcanic and tectonic unrest, rates of adaptation (e.g., evolutionary) to abrupt environmental change, and so on.

Quaternary research also provides direct insight into geological change, including sedimentation and the deposition of rock layers and natural energy resources. Applied Quaternary Geology is therefore very relevant for the Mining and Energy sectors, Geotechnology, Water and Hydrogeology, land surveys and planning, and large-scale engineering projects.

About INQUA India

The XXII INQUA Congress 2027 in Lucknow, India, will bring together the global Quaternary science community for a landmark gathering of research, discovery, knowledge exchange, and international collaboration.

Hosted in one of India's most culturally rich and scientifically significant regions, the Congress will highlight the latest advances in understanding past climate change, environmental transformations, geohazards, human evolution, landscape dynamics, and Earth-system processes.

Pre-Congress field trips will be organised from **20–27 January 2027**, with excursions ranging from **3 to 6 days**. These will offer participants an immersive opportunity to explore India's diverse geological, environmental, and cultural landscapes. All participants will gather in Lucknow on **27 January 2027** for the official welcome and Ice-Breaker Event, marking the beginning of the XXII INQUA Congress.

3000+
Participants

2878
Abstracts
Accepted

101
Countries

25+
Field
Trips

20+
Workshops

152
Scientific
Sessions

Rich Culture

Exploring India's
culture shaped by land
and climate.

Ancient Architecture

Discovering India's
legacy across eras and
landscapes.

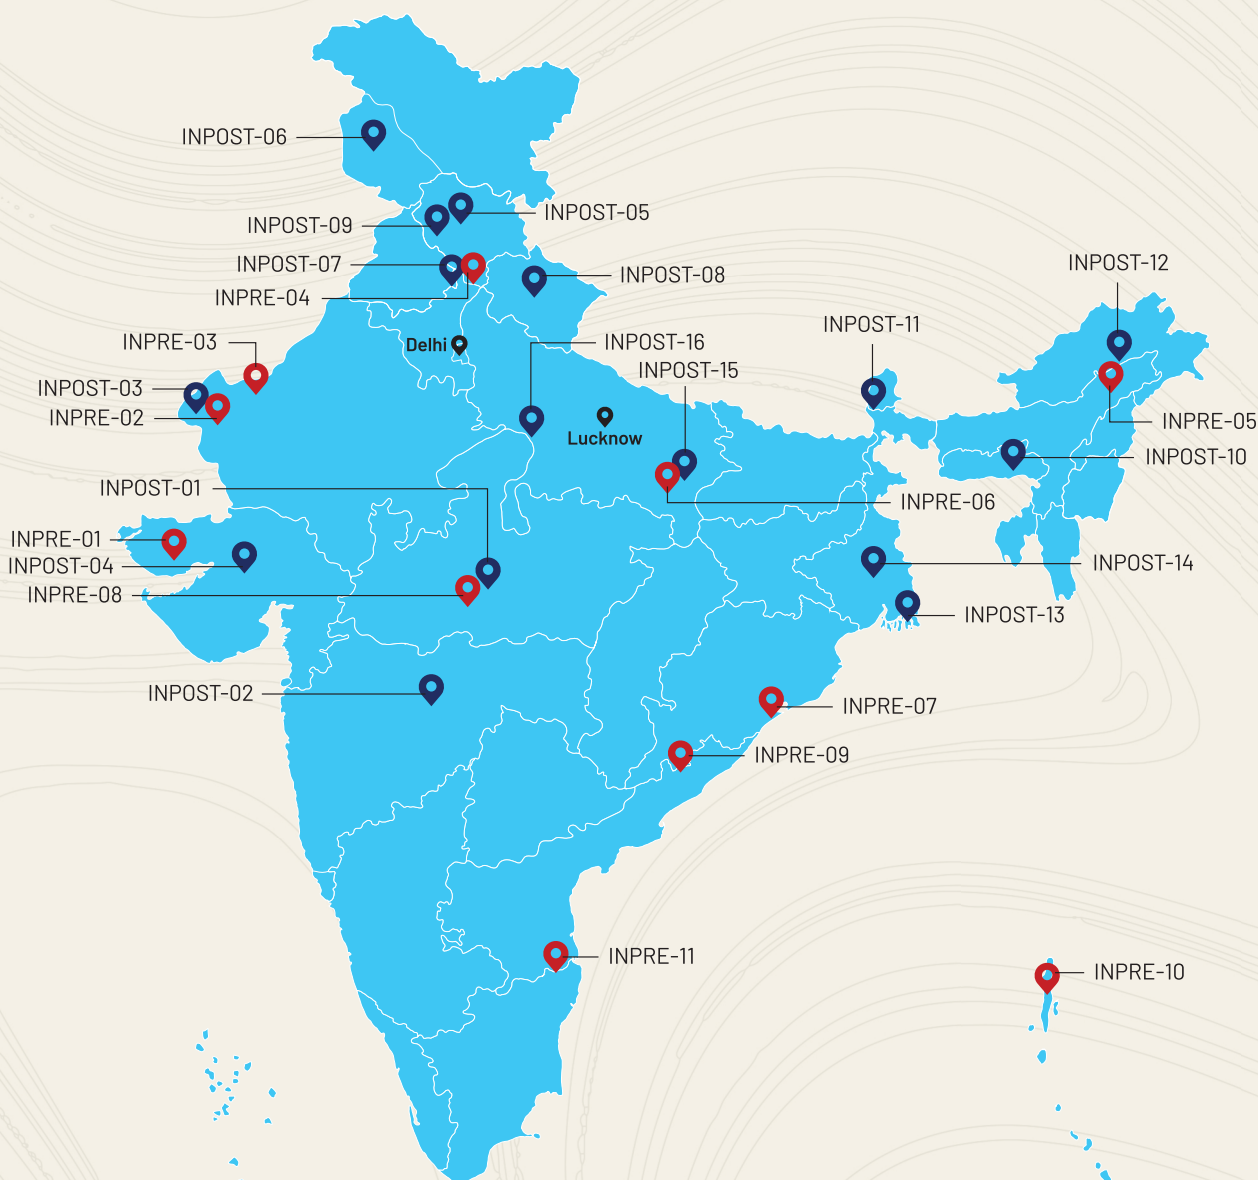

Culinary Diversity

Exploring culinary
heritage shaped by
climate and history.

Living Heritage

Highlighting living
traditions, crafts,
rituals, and continuity.

Pre & Post Conference

The field excursions to different parts of India are designed for 5–7 days each (including travel to and from the destination) to represent the scientific themes and activities of all INQUA Commissions (CMP, HABCOM, PALCOM, SACCOM, and TERPRO).

First INQUA Meet in the Indian Subcontinent

- » Showcasing the region's exceptional geological heritage, cultural richness, and diverse scientific landscapes.
- » Fostering global collaboration through the exchange of ideas, knowledge, and expertise in Quaternary science and Earth system research.
- » Bridging science and society by transforming research into insights that support sustainability, resilience, and informed decision-making.

Indira Gandhi Pratishthan

The XXII INQUA Congress will be held at Indira Gandhi Pratishthan (IGP) in Gomti Nagar, Lucknow. IGP is a green campus spread over 25 acres and has easy access to hotels with a range of luxurious star hotels.

The IGP is located at about 22 km from the airport and 11 km from the Lucknow Railway Station, Charbagh and is easily accessed through Uber, Ola and other taxi services.

The venue is environmentally conscious and fully accessible to persons with disabilities, and offers ample parking space. It can comfortably accommodate up to 5,000 delegates.

Indira Gandhi Pratishthan, Lucknow

Partner with INQUA 2027: Advancing Science, Sustainability and Global Collaboration

The XXII INQUA Congress 2027 marks a historic milestone as India hosts this prestigious global event for the first time. Bringing together **3,000+ delegates** from over **101 countries**, the Congress will provide a unique platform for scientific exchange and collaboration on climate change, environmental sustainability, geohazards, water resources, and earth system science.

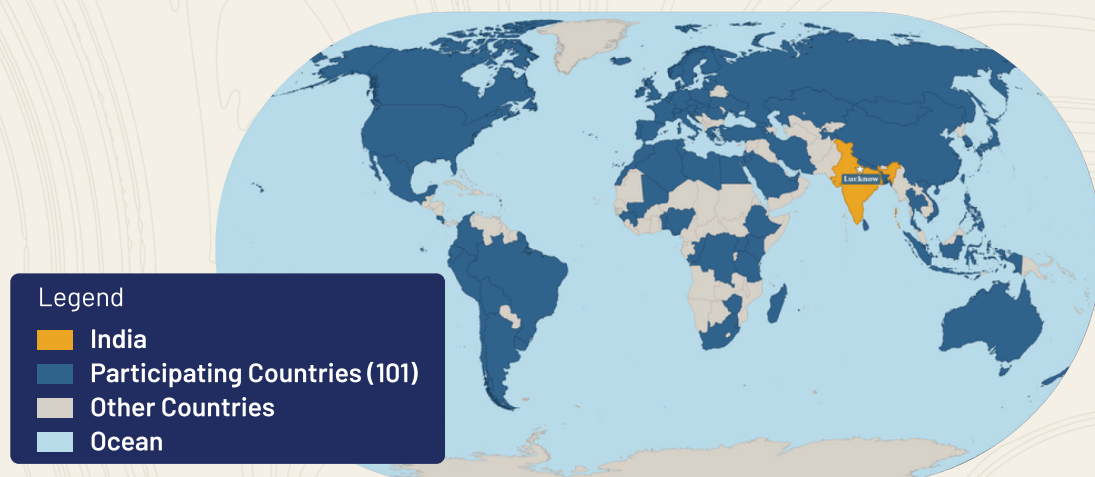

INQUA 2027 offers industry leaders, public sector enterprises, technology providers, and corporate partners an exceptional opportunity to engage with an international community of scientists, policymakers, academic institutions, and young researchers.

By partnering with INQUA 2027, your organisation/industry will support scientific advancement, foster international collaboration, and contribute to building a more sustainable and resilient future.

Join us in shaping global conversations on science, sustainability, and societal well-being

Benefits of Partnership

- » Global visibility among delegates from 101 countries.
- » Strategic engagement with researchers, institutions, policymakers, and industry leaders.
- » Enhanced brand positioning at a premier international scientific event.
- » Exhibition and networking opportunities with key stakeholders.
- » Recognition across conference publications, digital platforms, and event branding.
- » Alignment with sustainability, climate resilience, education, and CSR objectives.

Congress Venue

Indira Gandhi Pratishthan (IGP) Saturn Hall (Exhibition Hall)

Octonorm 3 × 3 sqm
1 side open-Red Carpet

State Stalls - include the following items:

- » Size of Stall : 3m x 3m
- » 3 Nos. Spot light on the back wall
- » 1 Nos. Table with 2 Nos. Chairs
- » Power point of 5 AMP - 1 Nos.
- » 2 Nos. Fascia branding - only name with stall number
- » Carpet
- » Dustbin

Octonorm 3 × 3 sqm
2 side open-Red Carpet

State Stalls - include the following items:

- » Size of Stall : 3m x 3m
- » 3 Nos. Spot light on the back wall
- » 1 Nos. Table with 2 Nos. Chairs
- » Power point of 5 AMP - 1 Nos.
- » 2 Nos. Fascia branding - only name with stall number
- » Carpet
- » Dustbin

**Octonorm 4 × 3 sqm
1 side open-Beige Carpet**

State Stalls - include the following items:

- » Size of Stall : 4m x 3m
- » 4 Nos. Spot light on the back wall
- » 1 Nos. Table with 2 Nos. Chairs

On-site Branding Opportunities

Brand Your Presence at INQUA India 2027

Sponsors can extend their visibility beyond the exhibition stand through strategically positioned branding opportunities across the Congress venue.

- » Congress Main Entrance Branding – high-visibility sponsor branding at the primary arrival/entry zone.
- » Registration Area Branding – sponsor logo integration across approved registration counters, backdrops or signage.
- » Main Stage / Session Branding – sponsor recognition on approved stage screens, session graphics or digital holding slides.
- » Exhibition Hall Branding – sponsor visibility at the Saturn Hall entrance and/or approved internal branding locations.
- » Directional & Wayfinding Branding – sponsor acknowledgement incorporated into selected directional signage.
- » Networking Lounge Branding – association with the Networking Lounge and Meeting Area.
- » Coffee & Refreshment Area Branding – brand association around the Coffee Area & Refreshment zone.

Branding Opportunity	Platinum	Gold	Silver	Bronze

Exhibition Overview

The exhibition will serve as a central platform for organisations, institutions, publishers, technology providers, equipment manufacturers, geological and scientific organisations and other stakeholders to showcase their work, products, services, and research-related capabilities.

Current Hall Planning Parameters

Parameter	Current Plan
Hall	Saturn Hall, Indira Gandhi Pratishthan, Lucknow
Approx. Hall Size	66 m × 42 m
Total Booths	50
3 m × 3 m Booths	47
4 m × 3 m Booths	2
5 m × 3 m Pavilion	1
Main Boulevard	5 m
Secondary Aisles	3 m
Approx. Ceiling Height	8 m

Hall Facilities

Registration Counters	Waste Collection Point
Information / Help Desk	Emergency Exits
Coffee & Refreshment Area	Fire Extinguishers
Welcome / Photo Opportunity Area	Fire Hose Reels
Organiser Office	Emergency Lighting
Storage	Loading / Unloading Access
First Aid	Visitor Flow Routes
Toilets	Wheelchair Accessible Routes
Water Station	

Custom Stand Design & Approval

Exhibitors wishing to enhance or customise their standard booth should submit their proposed design for approval before fabrication.

3D view / perspective	AV requirements
Floor plan	Branding artwork
Elevations	Furniture layout
Overall dimensions	Material specifications
Electrical requirements	Contractor details

NOTE: All custom structures must remain within the booked footprint and comply with venue, fire, electrical, and safety requirements. Final height and construction limits are subject to venue approval.

Exhibitor Services

Furniture

Additional tables	Display racks
Chairs	Sofas
Bar stools	Shelving
Counters	

AV

LED screen	Audio system
LCD display	Video player
Laptop	Digital signage

Electrical

Additional socket	Extension
Additional load	Dedicated electrical connection

Branding

Back-wall graphics	Light box
Vinyl	Hanging branding, subject to approval
Fascia enhancement	

Other

Plants	Internet
Waste bins	Catering
Storage	Hospitality
Cleaning
